

CONFIDENTIAL LABORATORY REPORT

PATIENT NAME : MR. L.J. COREA
AGE : 61 Years
BILL NO : EH\_MC\_381105
OPD / IP : IP
REFERRED BY : PROF. PRAMODH CHANDRASINGHE
COLLECTED TIME : 2025-09-04 08:36
GENDER : MALE
LAB REF NO : 25KH 0054872
WARD : ICU
REPORTED TIME : 2025-09-14 12:24

Focal low grade tumour budding is evident at the host lymphoid interface.
There is extramural lympho-vascular invasion in block E with a focus of perineural invasion. - LV1 Pn1.
The end resection margins of the specimen are free of tumour and are histologically normal. No synchronous bowel pathology is identified.
None of the 18 lymph nodes isolated reveals metastases - pN0
The appendix is histologically normal.

0/18

Conclusion

R/S Hemicolectomy specimen

- Well differentiated adenocarcinoma (G1 -G2 - low grade)
- pT4 pN0
- LV1 (extramural) Pn1.
- End resection margins are free of tumour
- No synchronous bowel pathology evident.
- 0/18 lymph nodes contain metastases - pN0

JH - 1813/25
